<u>ANNEX</u>

Accreditation and Qualification Requirements for Height-based Activities

1. All operators offering height-based activities for MOE students must ensure their facilities are accredited by a National Sports Association or a regional outdoor adventure learning professional body:

Activity	Accreditation Details	Frequency
Climbing and abseiling walls	Attain Operation Accreditation by the Singapore Sport Climbing & Mountaineering Federation (SSCMF)	Annual
Challenge courses	Attain Operation Accreditation administered by the Association for Challenge Course Technology (ACCT) Note: The ACCT is an internationally recognised standards developer for challenge course, aerial adventure park, canopy tour, and zip line industry. Challenge course operators conferred ACCT Accredited Operator status would have demonstrated compliance with the ACCT Standards through inspection, training documentation, and a detailed onsite operation review.	Every three years
